ABOUT GUGGLE AND TORQUITH

Welcome to Guggle & Torquith, a family run company with a passion in formulating quirky and distinguished scents. We are a perfumery, striving to innovate and create quality products for people to enjoy.

We benefit from the unique ability to work alongside our expert Chemist and Perfumer who is in control of our fragrance selection and creation.

We are able to offer hand poured eco soy wax candles, plant based oil diffusers and essential oil pillow mists to delicately fill your room with a range of expertly formulated scents.

ENVIRONMENTAL COMMITMENT

We are committed to minimising our impact on the environment. We maximise the use of recycled and recyclable materials in our products, using suppliers who recognise their environmental responsibilities.

We refuse to use paraffin, palm or gel wax in our products in an approach to source the most carbon neutral and environmentally conscious suppliers from land to jar. Our diffuser base liquid is sourced from grown plants rather than crude oil alternatives and we do not use any alcohol in our formulations.

We understand the increased cost implications of using these environmentally friendly and sustainable materials. However, we work our hardest to bring you the best product at the lowest prices we can through this sustainable business model.

BESPOKE REQUESTS (WHITE LABEL)

Our white label service allows you to collaborate with us to create the perfect candle or diffuser for your brand. You can choose from our existing scent formulations or work with us to create a new fragrance to suit your brand or vision. We can then package these products with your brands logo to create your perfect product!

Please also get in touch if you have a shop and would like to be a stockist for any of our products.

We also formulate fabric and chauffeur scent mists in a range of fragrances to suit any taste.

WEDDINGS

We also offer a wedding service providing couples with their favours for the day or helping to create a bespoke scent that will be theirs to remember forever. We offer a variety of plant based scents for tea light favours and essential oil mini pillow mists, to gift guests a scentsational take away from the day. With personalised designs and customisations, we can design these to match the wedding theme and style.

We can also work with couples to design a bespoke fragrance for their wedding day and create a scent memory to last for ever. Using our plant based fragrances, we will help to formulate the perfect aroma to scent the entire day. We will fill the venue using diffusers, create the perfume for the day and provide tea light favours for guests so everyone can take away the scent of the day. Get in touch to find out more information or to book a scent consultation.
